

# Practical Thinking Contents

## ▼ Practical thinking

- Introduction
- ▼ Knowing What to Do
  - ▼ Three basic know-all processes
    - Instinct
    - ▶ Learning
    - Understanding
    - ▶ Thinking in practice
  - ▼ The Black Cylinder Experiment
    - Experimental subjects
    - Relevance
    - Process not content
    - Raw thinking
    - Results
  - ▼ The Five Ways to Understand
    - ▶ L-1 Simple description
    - ▶ L-2 Porridge words
    - ▶ L-3 Give it a name
    - ▶ L-4 The way it works
    - ▶ L-5 Full details
    - ▶ Summary of levels of understanding
  - ▼ The Use of Understanding
    - ▶ How much detail
    - ▶ Black boxes
    - ▶ Named-ideas and bundle-ideas
    - ▶ Precise principles and vague general ideas
    - Summary
  - ▼ The Basic Thinking Processes
    - Carry-on
    - ▶ Connect-up
    - ▶ Problems and questions
    - ▶ Man is stupider than animals
    - ▶ Cross-links
    - Summary of porridge words

## ▼ The Five Ways to be Wrong

- ▶ M-1 The monorail mistake
- ▶ M-2 The magnitude mistake
- ▶ M-3 The misfit mistake
- ▶ M-4 The must-be mistake
- ▶ M-5 The miss-out mistake
- Summary
- Correcting mistakes
- Mistakes arise directly from the way the mind handles information

## ▼ The Four Ways to be Right

- The need to be right
- Understanding the unknown
- Education and being right
- Being right is a feeling
- Four ways of being right
- ▶ R-1 Emotional rightness (currant cake)
- ▶ R-2 Logical rightness (jig-saw puzzle)
- ▶ R-3 Unique rightness (the village Venus)
- ▶ R-4 Recognition rightness (measles)

## ▼ The YES / NO System

- ▶ Limitations
- ▶ The arrogance of being right
- ▶ The arrogance mistake
- Summary
- ▼ Humour, Insight and PO
  - Humorous explanations for cylinder falling over
  - Escape from the YES/NO system
  - Half right
  - Push ahead
  - Intermediate impossible
  - Right at each step
  - ▶ Insight
  - de Bono's 1st law
  - Discontinuity
  - ▶ 'PO' the new word
  - Summary
- ▼ Imagination
  - ▶ Aspects of imagination
  - ▶ Imagination in the black cylinder experiment
  - ▶ Reverse approach
  - ▶ The use of imagination
  - Summary
- ▼ Creativity
  - ▶ Black cylinder experiment: lack of multiple possible explanations and reasons
  - Lateral thinking (the process); Creativity (the result)
  - ▶ Purpose of creativity
  - Satisfaction and creativity
  - Change
  - Knowledge and creativity
  - Being wrong and creativity
  - Techniques and time in creativity
  - Summary

## ▼ Attention and Clues

- Area of attention
- Carving out areas of attention
- Different attention areas
- ▶ Clues
- Science tries to be wrong
- Practical man has to be right
- Bandwidth analysis
- Distortion
- ▼ Think-2
  - ▼ Starting place
    - Disagreement
  - Summary
- ▼ Conclusion
  - The most important rules of everyday thinking
- Summary Notes
- Back cover
